Product Information

	NAME	Product	Forehead Thermometer
		Model	DT-071
		Product License No	10-1298
		Origin	Korea
	Dimension & Weight	Dimension	58.3mm(L) X 27.9mm(W) X 48.0mm(H)
		Weight	31g
	Range	Measuring Range	Living Mode (0 ~ 100°C) Forehead Mode (34 ~ 42.5°C)
		Operating Condition	10 ~ 40 °C
		Accuracy (Forehead Mode)	36°C~39°C : ±0.2°C Other range : ±0.3°C
	Packing	Unit	1EA
	Price	Unit price	
Easytem values	Technology development & innovation for the healthier and safer world. Commitment to every customer's satisfaction. Trust and responsibility in all business and customer relationships.		

● Product Description

Configuration	* Thermometer, Safe storage Case, Manual
Product Features	1. The Thermometer Becomes a Part of Mother's Loving Touch The Easytem DT-071(Lunna baby thermometer) forehead thermometer features advanced technology combined with a unique non-invasive design that provides comfort of mother's loving touch to measure body temperature in one second from the forehead. With the new DT-071, which fits snugly between the fingers of mother, a child will feel the mother's loving hand on his/her forehead when the temperature measurement is taken. It's just like having the mother putting her palm on her child's forehead and the child will feel comfortable and safe.
	2. It can also be used for measuring temperature of water, atmosphere, baby bottles, etc., as well as human bodies.
	3. 10 Memory storage. Up to 10 temperature measurement can be stored that will allow you to compare with prior measurements.
	4. Automatic Shut-off. Easytem infrared thermometer will turn off automatically within 30 seconds after reading measurement.
	5. Lightweight & Compact Design. Ergonomic design and 31g lightweight enable comfortable and easy use.
	6. It can turn on or off measuring sound.
	7. It can warn when high body temperature is taken.
