

**Jet Air blower for Hands**

# **JET BLAST MONO**

**Ergonomic Designated Dryer**

# 1. Jet Blast Mono\_Overview

Innovative  
Hygienic  
Economic  
Smart

7th Floor 709, Ace Techno Tower-5, 197-22, Guro-3dong, Guro-gu, Seoul, 152-766 Korea

Tel +82-2-2025-7346 Fax +82-2-2025-7301 [www.biojangpoong.com](http://www.biojangpoong.com)

### 3. Jet Blast Mono – Specification

Red

White

Blue

Item	Detail	Item	Detail
Model	BJP-M100 (Speed adjustable)	Noise Level / Weight	75dB / 4.2Kgs (9.26 lbs)
Drying Time	15 sec (Timing Protection: 40 sec)	Dimension (mm/inch)	205/8.07 (W) × 220/8.66 (D) × 519/20.43 (H)
Power Consumption	Heater on: 1,200w / Heater off: 700w	Material	Burning proof ABS with Antibacterial Material (optional)
Power supply	AC 110V - 240V / 50 - 60Hz	Safety	Temp, Fuse, Bi-metal, Heater control (optional)
Air (Blowing) velocity	110m/s with fresh air gust	Water Tank	1,200ml
<b>Special Feature</b>		Coanda Nozzle Effects / 3 Step Filtering System / Water Tank Indicator / Self Malfunction Detection / Phytoncide (optional)	

# 3. Jet Blast Mono\_Function

## Filter system and Design

### 1<sup>st</sup> level filter

Se-mi Hepa Filter

### 2<sup>nd</sup> level filter

Medium Filter  
(w/motor)

### 3<sup>rd</sup> level filter

Carbon Mesh Filter

Ring Display

Switchable Front Panel

Separable Design

## Smart & Innovative

### Coanda Nozzle

- Maximize Hand Drying Area
- Minimize Water Splash

Burning proof ABS with Antibacterial Material  
(optional)

Dual IR LED & Sensors

Power Switch

Dual Intake Inlets

## Others

Water collecting system  
(Drain tank 1,200cc)

Water Tank Indication

7th Floor 709, Ace Techno Tower-5, 197-22, Guro-3dong, Guro-gu, Seoul, 152-766 Korea

Tel +82-2-2025-7346 Fax +82-2-2025-7301 [www.biojangpoong.com](http://www.biojangpoong.com)

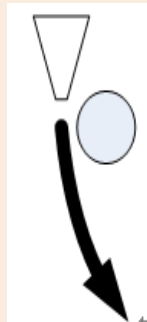

## 4. Special Features / Difference

### User Friendly Design and Wind!

#### Common Nozzle

#### Coanda Nozzle

- Cutting-Edge Technology
- Coanda Nozzle Makes High Speed Air towards Inner Side
- Optimizes Sweeping effect as Dual Type Hand Dryer Air Inlet located sides prevent Air Re-Entrant

### 3 Step Filtering System

#### 1st Hepa Filter

- Filtering over 96.0% of Bacteria
- 0.3 Microns from fine Dust

#### 2nd Medium Filter

- Motor Protection
- Dust(Airborne) Filtering

#### 3rd Carbon Mesh Filter

- Remove Fine dust for the Cleanest Air

### Smart Control

- 3 Level Speed Adjustment
- Heater controls bring optimum Air for user' s hands
- Most Advanced Hand detecting system (Dual IR LED + IR Receiver)
