A good quality hot pack should be durable and maintain a constant temperature for a long time.
Now you can meet high-quality hot packs made in Korea.

MADE IN KOREA

Production process for Mirae Corporation

Mirae Corporation Hot Pack is an automated system that boasts accurate capacity and temperature quality, and is able to meet high quality hot pack with MADE IN KOREA that runs nonstop from production to logistics delivery.

Non-woven fabric with Mirae corporation hot pack

Mirae Corporation hot packs are non-flocking, soft to the touch, and durable (non-flagging or non-splitting) cotton decals that are applied in Japan's Asahi Cassay.
