## Toothpaste for Pregnant women

### Description

#### Toothpaste for Pregnant Women

- Pregnant women in the early stage with morning sickness.
- Pregnant women who are cautious about the safety of their fetus.
- Use during pregnancy or after giving a birth!
- We care for the health of mother and the fetus first.
- Contains folic acid, essential for pregnant women, and xylitol and gold, essential for healthy teeth.

#### The 7 Most Important Points of Toothpaste for pregnant women

- When you become pregnant, your gum may bleed and swell due to hormonal changes and vasodilation, which is called gestational gingivitis.
- Pregnant women's gum diseases not only adversely affect the fetus, but also increase the risk of premature birth or low birth weight. It is important to use toothpaste with natural ingredients to protect the health of the mother and the fetus.
- Toothpaste for pregnant women proven with its safety Certification No. TAK-2019-042792(Korea), GB TEST(China), EAC(Russia)
- The product used naturally derived foaming agent extracted from coconut, instead of synthetic surfactant.
- Contains natural herbal ingredients with excellent anti-inflammation effects on gum.
- 100% Fluoride-free for the health of pregnant women and the fetus.
- Does not contain 14 synthetic chemicals harmful for human body such as paraben, benzophenone, SL(synthetic surfactant), and synthetic preservatives, etc.
