Different Shower,

DAILY CHA-E

DAILY
CHAE

DailyCha-E Corp.

Company Introduction

Cha-E means 'difference' in Korean.

DailyCha-E makes a daily 'difference'(Cha-E in Korean) in life by manufacturing filtered Showerhead.

We began in November 2019, and first launched our own showerhead in May through Wadiz, a Korean funding program. We've successfully launched our business by exceeding 516% of our existing goal, and we building our own premium area by obtaining KC Certification, using eco-friendly materials and great differentiated design that are not seen in other companies.

High-quality sediment filters are standard, and the two types of head filters (ACF or Vitapresso selectable) are highly scalable because they can be customized to the customer's taste.

These products are well received by users and in terms of quality and safety, no one can follow.

At a time when hygiene and comfort have become important,

DailyCha-E's innovative products make the time for customers to use daily and regain energy of the day. We also continue to work to present lasting differences in everyone's lives.
